4 full baths
2 half baths
4 dishwashers
3 laundry rooms
1- Eternal hybrid GU32

"My brothers and I build large homes for the luxury market. Product differentiation, performance and dependability are critical to us."

"Our plumber said Eternal Hybrid was the best in the market and the Cadillac of water heaters. He installed one unit with a recirculation system that feeds hot water to all the bathrooms and satellite laundry and kitchen areas. I was impressed when we walked the property and got consistent, instant hot water at every fixture. This has become another selling point for our properties."

"I absolutely recommend this product and in fact we're working on 6 other homes and will install Eternal in each."
